LEARNING THROUGH VIRTUAL REALITY

“No notebooks or textbooks. Students at Reddam House School in the UK learn in a virtual reality”

After the coronavirus pandemic, the school introduced virtual reality learning. Students and their teacher simply put on goggles and have everything they need to learn right in front of them. Therefore learning is more funny.

For example, students can travel through time, learn about the anatomy of the human body in 3D space, explore the Earth directly from space or embark on various experiments that would be very dangerous for pupils in real life.

The project plans to expand this method to the whole world. Currently, more than 84 different schools from 24 countries are involved in the project.

THE HEARTS DAY - 25TH SEPTEMBER

On September 25, 2023, a Heart day took place in Karviná. Heart Days have been organized regularly since 2000, a generally beneficial society for the life of children. The goal of this collection is to help sick, handicapped and abandoned children throughout the Czech Republic.

Our school has also participated in this collection, which managed to collect 9200 Czech crowns.

We managed to collect this amount of money thanks to the sale of pens, magnets and pins.

Everyone Should participate in such a collection, either by selling or donating, because you never know when you may find yourself in a difficult life situation and you will need help.

FIRST DAY IN OUR SCHOOL

The first day we were really nervous and scared, but we didn't have to be. Soon enough we found out that the fear was unnecessary and that it's actually really nice here.

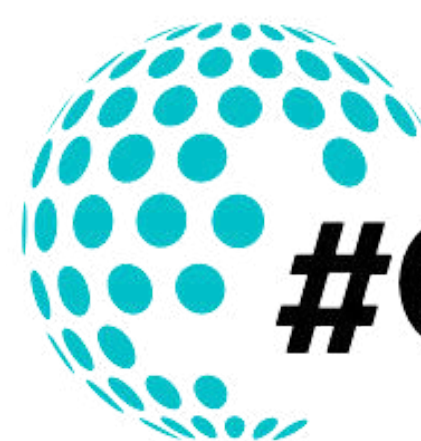

The first day at school teachers welcomed us with some fun activities. Then we went on a school trip so we could get to know each other.

It turned out really well. We played fun games and had a lot of fun. We also got school T-shirts and our teachers took us for a trip and said that it wouldn't be long but we walked about 14 km.

They said it would be for max 3 hours but it was 6. At the end of the day they gave us all pizza so it was the best part of the day. Most of the teachers here are really nice. What we don't like are the restrooms here.
